

Our Risk Services Program

Navigating the dynamic world of potential risk exposures, government regulations and legal requirements can feel like a burden on every employer. While these can seemingly come from all directions, there is a correlation between these exposures and how they can all potentially affect your business. Our Risk Services Program was created to provide organizations with the resources to ensure your foundational risk management bases are covered.

Compliance

Busy employers are challenged with incorporating, managing, reporting, and updating requirements in accordance with regulations such as ERISA, COBRA, HIPAA, and the ACA. Our Compliance Review services will provide an audit tool to help measure and address gaps that are needed to be filled to comply with various government regulations.

HR Technology

Technology Solutions helps identify, recommend, implement and manage various HR technology programs based on our client's unique needs. Our goal is to create value, efficiencies and a measurable ROI for our clients. We work to identify HR strategies that can be improved through the use of technology with our one-on-one approach.
