

SUCCESS STORY

PEO case study

Paint retail company increases benefits through exclusive program

The challenge

A paint retail company with 500 employees was leaving a PEO and needed a cost efficient health insurance program that incorporated payroll and HRS technology, workers' compensation and 401K.

Action plan

MMA identified a single plan that would consolidate all their employee benefit offerings into one program. The team then developed a strategy that leveraged an exclusive layered employee health and benefits program that combines a shared TPA risk layer and integrates with a fully insured medical plan. They recommended a health care plan through UnitedHealthcare® that incorporates health insurance, payroll and HRS technology, workers' compensation and 401K. MMA also made it a priority to improve the benefit offerings while decreasing the company's costs.

The achievements

MMA was successful in helping the company achieve their goal by providing a single plan for health insurance, payroll and HRS technology, workers' compensation and 401K. Since launching the program, the company has been able to reduce costs by \$1M on a \$5M spend.
